

***iThenticate* Report Form**

Information should be typed and then saved as a pdf. The completed form must be submitted to the defense committee with your thesis/dissertation. This form will also be submitted to the Graduate College with the final thesis/dissertation document and after successful defense.

The student is the sole author of their thesis or dissertation, and it is the student's responsibility to ensure that all information in their document is correctly cited and attributed, and that proper copyright permissions have been obtained. The *iThenticate* screening process should be only one part of their effort towards this end. For example, *iThenticate* cannot detect images and figures taken from other sources, texts in languages other than English, and user error (e.g. inappropriate exclusions).

Student Name (Last, First M.): **Nguyen, Vinh T.**

Student UIN: **673115040**

Student Email Address: **vnguye66@uic.edu**

Graduate Program Name (e.g., Biological Sciences): **Mathematics**

Degree Sought: **PhD**

Program Code (see <http://catalog.uic.edu/gcat/degree-programs/grad-prof-degree-programs/>): **20FS0439PHD**

If you cannot find your program code, please contact your program directly.

Thesis/Dissertation Title (must match title as submitted on the *Committee Recommendation Form* and the title page of the thesis/dissertation – use mixed case): **Asymptotic Analysis of Kinetic Models of Collective Behavior**

- Percent overlap in the initial *iThenticate* report -- before any review (e.g., 50%): **43%**
- Percent overlap in the *iThenticate* report -- after manual review to exclude trivial phrase overlaps and quoting/paraphrasing with proper citation (this is before editing your manuscript by adding citations, quote marks, correctly paraphrasing, etc.): **0%**

If actual edits to the manuscript are required (such as adding citations, quote marks, rephrasing, etc.), the new version of the manuscript is uploaded to *iThenticate*.

- Percent overlap in the *iThenticate* report -- after manual review, and after trivial overlaps were excluded, following edits to exclude overlaps of concern, i.e. adding citations, quote marks, correctly paraphrasing, etc. (if no edits to the manuscript were required, type "not applicable"): **not applicable**
- Have you included your own previously published work (Yes/No)? **Yes**
- If you have included your own previously published work, have you referenced it correctly according to the publisher's guidelines (Yes/No/Not Applicable)? **Yes**
- If you have included your own previously published work, did you include the publisher's copyright permission statement or written permission as an appendix (Yes/No/Not Applicable)? **Yes**
- Have you included collaborative work in your thesis/dissertation (Yes/No)? **Yes**
- If you have included collaborative work in your thesis/dissertation, have you included a "Contribution of Authors" paragraph as described in the *Introduction to Screening Your Thesis or Dissertation* (Yes/No/Not Applicable)? **Yes**
- Provide a brief statement to indicate what was changed in the editing of your manuscript including what you added to clarify contributions, previous publication and what you did to ensure proper citation and attribution (if no edits to the manuscript were required, type "not applicable"): **not applicable**

General notes on *iThenticate* screening:

1. See the *iThenticate* Review Procedures at <http://grad.uic.edu/ithenticate-review-procedures> for complete information on using *iThenticate*.
2. The initial overlap % is not usually cause for major concern as:
 - a. There will be instances in that first report that can be excluded, such as correctly cited material, or common phrases, etc.

- b. The point is to correct any actual deficiencies before the defense, and to achieve a document that has correct citations and attributions.
- 3. The percent overlap in the sequence of *iThenticate* reports, and summary of changes statement you provide above, are to show the defense committee how any initial overlap problems were resolved. Many initial overlaps may be items that are actually fine, and you will exclude them during your review. The overlaps that are significant (if applicable), and that you should not exclude, would require corrections to your manuscript, such as adding citations, quote marks, and/or re-paraphrasing.
- 4. The goal is to achieve a final 0% overlap; however:
 - a. You must be careful to exclude only instances that are trivial overlaps and not instances where corrections are necessary.
 - b. A 0% similarity does not necessarily mean that everything is resolved. The zero may be rounded, so 0% may still have a number of instances that need to be addressed. You will be able to see this while doing your analysis.
